## AV80 Mk5 Anti-Shock

Mounted with trolley for easy transportation (option !)

REMOTE VOLUME CONTROL

Technical data	AV80 Mk5
Output RMS/Mu/ PMPO	90 / 180 / 220W
Power Supply	230-240V AC, 260 W max.
<b>Cassette:</b>	
Freq. Response	60 - 14.000 Hz (HiFi)
Signal / Noise Ratio	56 dB
Wow / Flutter	0,15%
Tape System	IEC type 1 (Ferro)
Track System	4-track Stereo
Varispeed Range	none
Signal output	200mV PhonoJack
<b>CD:</b>	
Freq. Response	20 - 20.000Hz
Varispeed Range	none
Signal / Noise Ratio	90dB
Wow / Flutter	not measurable
<b>Amplifier:</b>	
Volume Control	ENCODER type
Tone Controls	Separate Bass & Treble
External Speaker output	6,3mm Mono Jack
Headphone output	6,3mm Stereo Jack
Microphone input	2mV 200 Ohm Jack
Line output CD/Cass.	200mV 47Kohm Phono
Line input	200mV 47Kohm Phono
Closed Speaker system	12" HD Dual Cone PA
Size mm HxWxD	600/365/270
Weight	App. 18 kg

### Probably the most powerful portable music/speech amplifier - - -

- Can be mounted with a "Trolley" for easier transportation (option !) - Highest performance.
- AV80Mk5 's astoundingly performance makes it ideal for use, in large classrooms, big halls and in open fields. For Dance - Education - Meetings - Plays etc.
- Standard RCA (phono) connections are provided on the front panel for all line inputs and outputs.
- The new "ROTARY ENCODER" volume control is easy to use and enables the volume to be adjusted manually or by REMOTE CONTROL
- AV80 Mk5 will always start up at the preset volume, No possible SOUND-SHOCK at start-up.
- 23 key infrared remote control with direct access to 99 CD tracks and many other functions.
- LCD Display for the CD shows Real Time Counter and all relevant CD information.
- CD functions include Repeat, Intro, Skip, Cue, Mute, Program, Random etc.
- AV80Mk5 's CD uses the latest anti-shock mechanism to prevent skipping etc.
- AV80 Mk5 has a totally enclosed, air-tight loudspeaker cabinet construction, ensuring the highest sound quality and performance from the 12" Heavy Duty, dual cone PA-loudspeaker.
- AV80Mk5 is designed for use wherever highest sound pressure level is required. Remote control sensor on front panel of the unit.
- AV80 Mk5 is constructed using a unique combination of strength and quality of materials, thus ensuring a long service life, with a low cost of ownership.
- The AV80 Mk5's clean, modern design, enables it to retain its "new appearance" during the lifetime of the unit.
